YOUTHREACH

Inclusive and Transformative Frameworks for All

EU PROGRAM
Erasmus+, KA2 Strategic partnership in the field of Adult Education

YEARS
2021-2024

BUDGET
339.738 €

MAIN OBJECTIVE

The project aimed to transform social intervention practices by developing an inclusive outreach methodology that shifted from a logic of placement to a logic of accompaniment. Its main goal was to create innovative socio-professional approaches enabling educators, youth workers, and social workers to promote genuine dynamics of social inclusion for marginalized groups, especially young people.

MAIN ACTIVITIES

YouthReach strengthened inclusive outreach practices by analysing existing models and identifying gaps between training and practice. It designed and piloted a training module for educators and social workers, and developed a new outreach methodology to better reach marginalized groups. A pedagogical toolkit was produced to support professionals and volunteers with practical resources. Two international training mobilities and several transnational meetings enabled peer learning and exchange. Dissemination events and continuous evaluation ensured that results were shared, validated, and integrated into professional training and institutional practices

INNOVATIVE ELEMENTS

YouthReach introduced an inclusive outreach methodology that shifted from a logic of placement to one of accompaniment. It combined training, practice, and institutional change, ensuring coherence between what professionals learn and how they act in the field. The project promoted low-threshold services, making access to rights and support simpler and faster for marginalized groups. Finally, it created a transferable pedagogical toolkit that empowers educators, social workers, and volunteers across Europe.

TARGET

The project addressed professionals in social work, education and youth services, equipping them with new outreach methods and tools. It also involved volunteers and students in training and practice, fostering innovation in local communities. Indirectly, marginalized young adults and vulnerable groups benefited from more inclusive and accessible support services.

CONSORTIUM

- LERIS (France) - Coordinator
- UAB Universidad Autónoma de Barcelona (Spain)
- Slovenian Institute for Adult Education (Slovenia)
- Faculty of Social work, Ljubljana (Slovenia)
- Aretés soc. coop. (Italy)
